

WE ARE WORKING HARD TO PREVENT WILDFIRES AND MAKE OUR SYSTEM SAFER

In addition to rebuilding our system from the underground up, new safety settings are keeping your community safe.

These settings help prevent wildfires by automatically turning off power if there is a hazard on a line. While this may result in power outages, support is available to help you prepare and stay safe.

Get support with:

- Creating an emergency plan
- Securing backup power options
- Receiving support for medical needs

How can you stay informed?

- Update your contact information
- Sign up for Address Alerts
- Follow us on social media
- View our online outage maps

LOCAL SUPPORT DURING PUBLIC SAFETY POWER SHUTOFFS (PSPS)

PSPS are proactive, targeted power outages used to prevent wildfires. We will do our best to notify you before your power is turned off for safety. Local resources are available to support you during a PSPS:

Community Resource Centers (CRC)

- ▶ ADA-accessible restrooms, device charging, Wi-Fi and other amenities
- ▶ Air conditioning or heating (at indoor centers)

211

- ▶ Call 211, text “PSPS” to 211-211 or visit **211.org** to access local support
- ▶ Free, confidential and available 24/7

Disability Disaster Access & Resources (DDAR) Program

- ▶ Provides additional support to those with certain medical needs
- ▶ Food stipends, accessible transportation and hotel stays
