

# 10,000-MILE UNDERGROUNDING PROGRAM

Our wildfire safety efforts, including moving powerlines underground, are making the electric system safer and more resilient for our communities.

We are prioritizing undergrounding in areas where we can have the greatest impact on reducing wildfire risk.

## 2024 - 2026 Local Undergrounding Maps

To view locations of recently complete or forecast projects for 2024, as well as areas we have identified for potential undergrounding work in 2025-2026, click the county name below:

- Alameda
- Amador
- Butte
- Calaveras
- Contra Costa
- El Dorado
- Fresno
- Glenn
- Kern
- Lake
- Mariposa
- Mendocino
- Napa
- Nevada
- Placer
- Plumas
- San Mateo
- Santa Cruz
- Shasta
- Sierra
- Solano
- Sonoma
- Tehama
- Tuolumne
- Yuba

Data as of 12/31/2023. Maps are for illustrative purposes. Forecasts can change as our risk model evolves to address the greatest wildfire risk. Forecast miles also exceed annual targets. Mileage in a community may increase or decrease due to access, weather, permitting or other constraints. In most cases, if a project is not completed during the year originally identified, it will continue through planning/construction phases during subsequent years.

# Undergrounding Map Alameda County

Undergrounding is one of many layers of protection that PG&E uses to reduce the risk of wildfires and keep our customers and hometowns safe. The map below shows the approximate locations of recently complete or forecast projects for 2024, as well as areas we have identified for potential work in 2025-2026. Forecast miles include areas that are in any stage of the planning process and projects are subject to change.

# Undergrounding Map City of Vacaville

Undergrounding is one of many layers of protection that PG&E uses to reduce the risk of wildfires and keep our customers and hometowns safe. The map below shows the approximate locations of recently complete or forecast projects for 2024, as well as areas we have identified for potential work in 2025-2026. Forecast miles include areas that are in any stage of the planning process and projects are subject to change.

**2024 COMPLETE/FORECAST**  
**APPROX. 6 MILES**

**2025-2026 FORECAST\***  
**0 MILES**

\*Extended forecast does not include all planned work and has a higher potential for changes.

For more information, please visit [pge.com/undergrounding](https://pge.com/undergrounding).

Data as of 12/31/2023. This map is for illustrative purposes. Forecasts can change as our risk model evolves to address the greatest wildfire risk. Forecast miles also exceed annual targets. Mileage in a community may increase or decrease due to access, weather, permitting or other constraints. In most cases, if a project is not completed during the year originally identified, it will continue through planning/construction phases during subsequent years.

Some of the measures included in this document are contemplated as additional precautionary measures intended to further reduce the risk of wildfires. "PG&E" refers to Pacific Gas and Electric Company, a subsidiary of PG&E Corporation. ©2024 Pacific Gas and Electric Company. All rights reserved. 1/23/2023.
