RATES:
(Cont'd.)

2. Per-Event Metering Service Charges (Cont'd.)

- f. Meter Programming (Remote), per meter\$41.90

This charge is incurred when PG&E reprograms a SmartMeter remotely. PG&E will not charge for over-the-air reprogramming to 15 minute intervals for meters serving retail residential customers locations that are registered through Rule 24 as part of the active 200,000 customer locations in the Initial, Intermediate, Next Step Beyond the Intermediate, and 200,000 Registration Level of Implementation steps established in D.16-03-008, D.16-06-008, and Resolution E-4837, subject to the available budget authorized in D.16-06-008, Resolution E-4837, and the resolution approving Advice 5446-E, where PG&E is the Meter Data Management Agent and the Meter Service Provider.

(T)

- g. Meter Battery Change, per meter\$58.01

This charge is incurred when PG&E replaces the interval meter battery.

- h. Metering Inspection, per meter\$106.36

This charge is incurred each time PG&E inspects the interval metering facility beyond what is required by its normal business practices.

- i. Metering Services Hourly Labor Rate.....\$125.69

Metering services performed by PG&E which are not covered by the above service charges or any other PG&E fees or contracts will be charged this hourly rate, plus the Metering Service Base Charge described above, plus materials costs.

Application of Per-Event Metering Service Charges:

When PG&E performs any of the above services, the Metering Service Base Charge and applicable service charge(s) apply. For example, if an interval meter malfunction requires repair and testing of the meter, the requesting party would incur the Metering Service Base Charge, Unscheduled Metering Maintenance Charge, and the Meter Test Charge. The Metering Service Base Charge does not apply to PG&E's remote programming of its' SmartMeter.

Once the requesting party has communicated to PG&E that the interval meter site is ready for interval meter installation, if the interval meter site is not prepared at the time PG&E attempts to perform the interval meter installation, the requesting party will be charged the Metering Service Base Charge and the Metering Inspection Charge.

If conditions at the customer's meter site require an exceptional amount of material and/or time to perform meter services, the requesting party will be charged for the additional material cost and the hourly rate for the additional time.
