

**ELECTRIC SCHEDULE E-EUS
END USER SERVICE**

Sheet 1

APPLICABILITY: This schedule applies to any Customer electing Direct Access (DA), as defined in electric Rule 1 and Rule 2. (D)

TERRITORY: The entire PG&E service territory.

RATES: If PG&E performs any metering service for an Electric Service Provider (ESP) or Customer pursuant to Rule 22, the following charges shall apply: (N)

1. Interval MeterSpecial Facility Fee per Rule 2 (T)

2. Per-Event Field Metering Service Charges (T)

a. Metering Service Base Charge, per meter.....\$300.00 (I)

This charge is incurred by the customer when PG&E goes to a meter location to perform a DA metering service activity, but is unable to perform the metering service due to lack of access or for other reasons beyond PG&E's control. (N)
(N)
(D)

Metering Service Charges:

b. Meter Installation, per meter \$500.00 (I)

This charge is incurred by the customer each time PG&E installs an ESP or Customer-owned interval meter. This rate includes costs for the installation of the interval meter. This service does not include the interval meter cost, metering transformer material and installation cost, telecommunications equipment, installation or service costs. (N)
(D)

c. Meter Removal, per meter\$400.00 (I)

This charge is incurred by the customer each time PG&E removes an ESP or Customer-owned interval meter or a meter to be replaced by the interval meter. It includes costs for removal and processing of the existing meter. (N)

d. Meter Test, per meter.....\$400.00 (I)

This charge is incurred by the customer when PG&E tests ESP or Customer-owned the interval meter. (N)
(N)

e. Meter Programming, per meter\$350.00 (I)

This charge is incurred by the customer when PG&E programs the ESP or Customer-owned interval meter. (N)

f. Meter Battery Change, per meter\$350.00 (I)

This charge is incurred by the customer when PG&E replaces the ESP or Customer-owned interval meter battery. (N)

Sheet 2

RATES:
(Cont'd.)

- 2. Per-Event Metering Service Charges (Cont'd.)
 - g. Metering Inspection, per meter.....\$350.00 (I)

This charge is incurred by the customer each time PG&E is only required to inspect the ESP or Customer-owned interval metering facility for issues or approval. (N)
(N)
(N)
 - h. Metering Services Hourly Labor Rate\$350.00 (I)

Metering services performed by PG&E which are not covered by the above service charges or any other PG&E fees or contracts will be charged this hourly rate, plus the Metering Service Base Charge described above, plus materials costs.
- 3. Per-Event Project Management Support (N)
 - a. Administrative Support (No Field Work), per request..... \$75.00 |
 - b. Field Metering Service Support, per request..... \$360.00 |
 - c. Removal of ESP or Customer-owned Meter, per request..... \$535.00 |
 - d. Installation of ESP or Customer-owned meter/customer meter panel upgrade, per request \$1,075.00 (N)
- 4. Application of Per-Event and Per-Request Metering Service Charges: (N)

When PG&E performs any of the services in this rate Schedule, the applicable Field Metering Service and Project Management Support charge(s) would apply. For example, if an interval meter malfunctions and requires reprogramming; the Meter Programming Charge and Field Meter Service Support Charge would apply. (T)
|
(T)
(N)
(N)

Once the customer has communicated to PG&E that the interval meter site is ready for interval meter installation, if the interval meter site is not prepared at the time PG&E attempts to perform the interval meter installation, the customer will be charged the Metering Service Base Charge and the Field Metering Service Support Charge. (T)

If conditions at the DA meter site require work activities outside of the standard metering services listed above, the customer will be charged on a time and materials basis using the Metering Services Hourly Labor Rate. In addition, the Field Metering Service Support Charge will be applied. (T)
